**SOLLUM TECHNOLOGIES NAMED A WINNER OF  
DELOITTE'S 2021 TECHNOLOGY FAST 50™ AWARD  
IN THE COMPANIES-TO-WATCH CATEGORY**

Montréal, Québec, Canada, November 17, 2021 – Cementing itself as a major industry entrant in the world of horticultural lighting, [Sollum Technologies](#) has been named a winner of Deloitte's 2021 Technology Fast 50™ Award in the Companies-to-Watch category. This award not only recognizes innovative technology, but those companies that successfully translate innovation to commercial success.

"This is a highly respected designation, and receiving this award goes to show just how much progress we've made – in a short period of time – breaking into an extremely competitive market," says Sollum Technologies CEO and co-founder, [Louis Brun](#). "This is only the beginning for us as we continue to grow as a business and get our game-changing LED lighting solution in the hands of more producers."

Deloitte's [Technology Fast 50™ program](#) has been recognizing leading tech companies for 24 years. There are five award categories: Enterprise 15™, Technology Fast 50™, Companies-to-Watch, North American Fast 500™ and Clean Technology. The Technology Fast 50™ award is presented to enterprise-level technology, media and telecommunications companies who have demonstrated outstanding revenue growth over their last four years of operation.

Sollum adds this award to a growing list of recent accolades including winning a [Greenhouse Technology Award](#) and [Sapphire Award](#).

### About the Deloitte Technology Fast 50™

The Deloitte Technology Fast 50 program is Canada's pre-eminent technology awards program. Celebrating business growth, innovation and entrepreneurship, the program features distinct categories, including the Technology Fast 50 ranking, Enterprise Fast 15, and Companies-to-Watch. The program also recognizes companies within the North American Technology Fast 500 ranking, identifying technology companies in the United States and Canada. The 2020 program sponsors include Deloitte, RBC, CBRE, Clarity Recruitment, and Lafond. For further information, visit [www.fast50.ca](http://www.fast50.ca).

### About Sollum Technologies

Inspired by nature, Sollum Technologies was founded in 2015 to offer greenhouse growers the only smart LED lighting solution which dynamically recreates, perfects, and modulates the full spectrum of the Sun's natural light. The company is based in Montréal (Québec, Canada), where its design, development, and manufacturing activities are concentrated. Sollum™ works closely with its clients and research centers to create recipes that are adapted to the growth cycle of each crop, regardless of its native climate or the location of the greenhouse. Its SUN as a Service® cloud platform enables multi-zone light management so growers can implement several different recipes simultaneously in the same greenhouse. The platform also automatically adapts the lighting of each zone to the ambient light to match recipe targets. Sollum's award-winning lighting solution thereby provides unparalleled value in terms of energy savings, productivity, and superior produce quality through a flexible, adaptive, and easy-to-use application, with great respect for the environment.
